

*CLIMATE CHANGE &
SUSTAINABLE DEVELOPMENT
M.Sc. DEGREE*

The Institute of Graduate Studies and Research, Alexandria University is delighted to announce that application for the Master degree of Climate Change and Sustainable Development (CCSD) shall start as of 1st of December 2017.

The CCSD master program offers an interdisciplinary academic environment that promotes open critical inquiry of the scientific and socio-economic complexities of climate change. Graduates of the master program are prepared to target jobs in the various emerging career paths in sustainable development and climate change.

Overseas students and graduates of the faculties of arts (geography and GIS), fine arts (architecture), commerce, agriculture, science, economic studies and political science, engineering, pharmacy and medicine are legible to apply.

Alexandria Research Center for Adaptation to climate change (ARCA) offers a number of scholarships for students with distinguished academic record.

Prospective applicants may obtain the application form from the graduate studies office at the Institute of Graduate Studies and Research.
